Public Notice

14.06.2026

**Subject: Clarification Regarding Conduct of Rescheduled CUET (PG) 2026 Examination and Methodology
Adopted for Preparation of Results.**

1. The National Testing Agency (NTA) has noted certain queries and observations being circulated on social media and received through emails regarding the conduct of the rescheduled CUET (PG) 2026 examination and the methodology adopted for preparation of results.
2. In this regard, it is clarified that CUET (PG) 2026 was conducted in Computer Based Test (CBT) mode across multiple dates and shifts. However, due to circumstances beyond the control of candidates, examinations at certain centres could not be conducted on the scheduled dates. These included centres in Tura (Meghalaya), where local disturbances affected the conduct of the examination, as well as certain overseas centres affected by the prevailing security situation and other unavoidable circumstances.
3. In order to ensure that no candidate was deprived of an opportunity to appear in the examination due to reasons not attributable to them, NTA conducted a special rescheduled examination as a welfare measure and in the interest of equity and fairness.
4. A total of 534 unique candidates from Tura (Meghalaya) and 31 candidates from overseas examination centres, who could not take the examination on the originally scheduled dates, were accommodated in the rescheduled examination conducted on 29 and 30 March 2026. These candidates belonged to only 28 subjects. The rescheduled examination was conducted exclusively for such affected candidates and was not part of the originally planned examination schedule.
5. Certain queries have also been raised regarding normalization of scores. In this regard, it is clarified that CUET (PG) 2026 results have been prepared on the basis of actual marks obtained by candidates in their respective subjects. The candidates who appeared in the rescheduled examination were evaluated using the same marking scheme as applicable to all other candidates. Normalization is ordinarily considered where statistically comparable candidate groups are available across different shifts of an examination. In the present case, the rescheduled examination involved only a limited number of affected candidates spread across 28 subjects. The size of this cohort was substantially smaller than the corresponding candidate populations in the regular examination schedule. Under such circumstances, any statistical comparison between a very small rescheduled group and the much larger original candidate population would not yield meaningful or scientifically reliable outcomes.
6. The question papers administered in the rescheduled examination papers were prepared in advance for the examination developed by subject experts as part of the examination design process and certified to be of equivalent difficulty level, thereby ensuring fairness and maintaining the integrity of the evaluation process.
7. To further promote transparency and address concerns raised on social media, NTA is placing in the public domain, as annexures to this notice, subject-wise details of marks obtained by candidates who appeared in the rescheduled examination on 29 and 30 March 2026, as well as the list of overall top-performing candidates in the corresponding subjects from the regular examination schedule. These details demonstrate that the performance of candidates in the rescheduled examination falls within the normal distribution of scores observed in the respective subjects and does not indicate any unusual or disproportionate advantage. NTA remains committed to conducting examinations in a fair, transparent, and candidate-centric manner while safeguarding the interests of all candidates and maintaining the integrity of the examination process.

Director (Exams), NTA
