PLAST PACK 2026

INNOVATION TOWARDS SUSTAINABILITY, CREATING OPPORTUNITY

Unlocking India's Plastics Market Opportunity

Join us at Labhganga Exhibition Center, Indore for India's premier plastics and packaging exhibition. Connect with key industry players, explore cutting-edge technologies, and unlock strategic partnerships in one of the world's fastest-growing markets.

NOV 27–30, 2026

India's Plastics Market – Rapid Growth & Potential

India's plastics market presents exceptional growth opportunities. Valued at USD 46.77 billion in 2025, the market is projected to reach USD 75.3 billion by 2035, growing at a robust CAGR of 6.14–6.5%.

- **MARKET SIZE: USD 46.77 BILLION (2025)**
- **PROJECTED: USD 75.3 BILLION BY 2035**
- **DEMAND GROWTH: 28+ MMT (FY25) → 42+ MMT (FY31)**

China–India Trade Dynamics – A Ground Floor Opportunity

- USD 660.92M PLASTICS MACHINERY IMPORTS FROM CHINA (2024)
- 58% OF INDIA'S HIGH-PRECISION MOLDS SOURCED FROM CHINA
- CHINA'S PE DEMAND 6X INDIA'S – MASSIVE GROWTH POTENTIAL

Unique Market Opportunity

India's rapid industrialization and lower manufacturing base present a unique ground floor opportunity for Chinese vendors. As India's plastics sector accelerates, early market entry positions your business for long-term growth and partnership success.

Plastpack 2025 Achievements – Proven Success

Plastpack 2025 demonstrated the exhibition's growing influence in India's plastics industry. The event attracted massive participation with industry leaders like Milacron, JH-Welltec, Windsor, and Rajoo showcasing cutting-edge technologies.

- **100,000-200,000 VISITORS; 350-400 COMPANIES**
- **ROBOTICS, AI-ENABLED QC, AUTOMATED RECYCLING SHOWCASED**
- **200+ STALLS FEATURING TOP INDUSTRY LEADERS**

Indore – India's Strategic Industrial Hub

Central Location, Unmatched Connectivity

Indore's strategic position in central India provides direct access to Gujarat, Maharashtra, and North Indian markets. Key highways including NH 47 connect major industrial belts, while proximity to Pithampur Auto Cluster enhances manufacturing synergies.

Recognized as India's cleanest city, Indore serves as a premier manufacturing and logistics hub for west-central India with a strong industrial reputation.

Plastpack 2026 Scaling Up

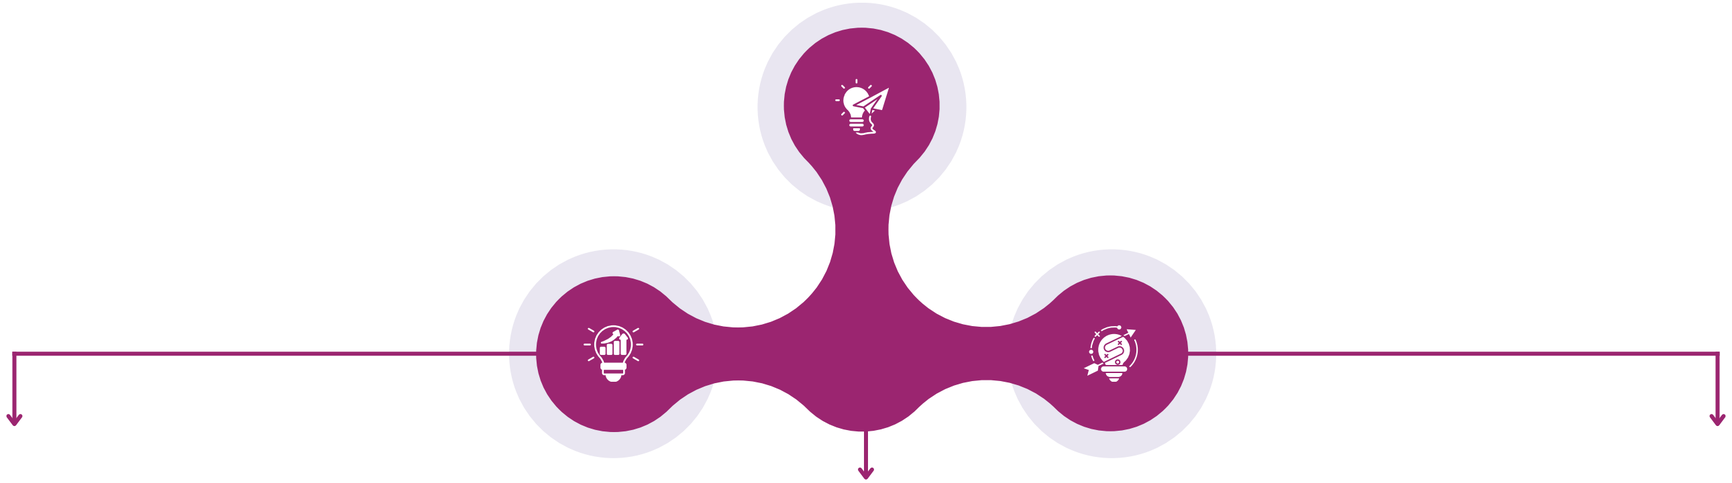

Nov 27–30, 2026 | Labhganga Exhibition Center, Indore

Organized by Indian Plast Pack Forum (IPPF), Plastpack 2026 delivers a more comprehensive platform featuring the latest machinery, raw materials, packaging solutions, recycling technologies, and industry innovations.

Building on 2025's proven success, the 2026 edition offers enhanced networking opportunities, expanded technology demonstrations, and greater industry collaboration to drive business growth.

- ADVANCED TECHNOLOGY DEMOS
- INDUSTRY COLLABORATION HUB

Visitor Profile – Quality Buyers Ready to Engage

Distributors & Factory Owners

Connect with distributors, converters, and FMCG-linked businesses actively seeking new machinery suppliers and partnership opportunities.

Technical Buyers Prefer Live Demos

Quality buyers trust live demonstrations over catalogs. Showcase your machinery capabilities directly to procurement heads and engineers.

Decision Makers Ready to Act

Senior decision makers attend Plastpack motivated by machinery demonstrations, creating faster deal conversion opportunities for exhibitors.

Distributor Partnership Opportunities

Plastpack 2026 – Your Gateway to Indian Markets

Meet distributors from multiple major Indian markets in one place. Plastpack 2026 offers Chinese vendors a unique platform to bypass the complexities of direct market entry through trusted local partners.

Establish long-term regional partnerships with established Indian distributors who understand local market dynamics and regulations.

Multi-Market Access

Connect with distributors covering Gujarat, Maharashtra, Madhya Pradesh, and North Indian industrial regions through a single exhibition.

Trusted Partnerships

Build relationships with established Indian partners who provide market expertise, regulatory navigation, and distribution networks.

Indian Plastics Machinery Sector

Accelerating Growth at 11.1% CAGR

India's plastics machinery sector is experiencing remarkable growth, driven by expanding market demand and rapid technology upgrades across the industry. This acceleration creates significant opportunities for international machinery vendors seeking to establish presence in one of Asia's fastest-growing markets.

Plastpack 2026 serves as the vital platform connecting machinery manufacturers with India's growing industrial base and quality buyers.

Why Plastpack 2026 is Ideal for you

PLAST PACK 2026
INNOVATION TOWARDS SUSTAINABILITY, CREATING OPPORTUNITY

Comparing Direct Market Entry vs. Plastpack Exhibition

Direct Entry Challenges:

- Complex regulatory requirements
- Distribution network gaps
- High market entry costs
- Limited buyer access
- Trust-building barriers
- Fragmented regional markets

Plastpack Advantages

- Central Indore location accessing key markets
- Pre-qualified, focused buyer audience
- Government and industry leader support
- Live demo opportunities for trust building
- Accelerated market penetration

Leveraging Live Demonstrations

Build Trust and Close Deals Faster with Chinese Technology

Live machinery demonstrations build faster trust with technical buyers than catalogs alone. Indian procurement heads and factory owners prefer seeing equipment in action before making purchasing decisions.

↘ Demonstrations facilitate quicker deal conversion by showcasing advanced Chinese technologies directly to decision makers. Plastpack 2026 provides the ideal platform to demonstrate precision, reliability, and innovation to qualified buyers.

Strategic Benefits of Exhibiting at Plastpack 2026

Access to India's Fastest-Growing Market

Tap into India's plastics industry projected to reach USD 75.3 billion by 2035. With demand growing from 28+ MMT to 42+ MMT by FY31, Plastpack 2026 positions you at the heart of this explosive growth opportunity.

Strategic Regional Exposure via Indore

Indore's central location provides direct access to Gujarat, Maharashtra, and North Indian markets. Leverage proximity to the Pithampur Auto Cluster and major industrial zones to expand your reach across west-central India.

Trusted Distributor Partnerships

Connect with established Indian distributors, factory owners, and procurement heads ready to partner. Build long-term relationships with trusted regional partners who understand local market dynamics and distribution networks.

How to Maximize Your Plastpack 2026 Experience

Strategic preparation is key to capturing India's plastics market opportunity. Follow these actionable steps to ensure your exhibition presence delivers maximum ROI and establishes lasting business relationships.

- **PREPARE LIVE DEMOS TAILORED TO INDIAN BUYER NEEDS**
- **ENGAGE PROACTIVELY WITH DISTRIBUTORS AND PROCUREMENT HEADS**
- **PLAN FOLLOW-UPS FOR LONG-TERM PARTNERSHIPS**
